APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 62977 is issued subject to the terms and conditions imposed in said Permit 62977 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

This permit is issued subject to the "Pipeline Gold Project Groundwater and Surface Water Monitoring Plan" submitted to the State Engineer on August 2, 1993, and to Pershing County and Lander County. Stipulation dated May 21, 1993.

The total combined duty of water under Permits 66221, 66222, 66223, and 66224 shall not exceed 2,415.48 acre-feet per season and is limited to the irrigation of 779.12 acres.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Monthly records will be kept of the volume of water pumped from this well and delivered to the irrigation system under Permits 66221 through 66224, inclusive. The records shall be submitted on the monthly report for Cortez Joint Venture.

The issuance of this permit expires Permit 66217-T.  
(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.9688 cubic feet per second, and not to exceed a seasonal duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and be completed on or before:

February 12, 2002

Proof of completion of work shall be filed before:

March 12, 2002

Water must be placed to beneficial use on or before:

February 12, 2004

Proof of the application of water to beneficial use shall be filed on or before:

March 12, 2004

Map in support of proof of beneficial use shall be filed on or before:

March 12, 2004
